PROFESSIONAL SUMMARY

Dedicated CNC Machinist with 11 years of experience in CNC machining. I am experienced in Turn Mill 5 Axis CNC Machines (**DMC/DMG 125Fd DUO BLOCK, WFL M80X and MAZAK INTEGREX e-1060V/8**). I have experience operating Doosan Puma 280M, 400M, 4100M, NL3000, SL 603/2000, Puma 800M, and Puma 800LM turning machines.

I have experience working within tight tolerances and using both Manual and Digital measuring instruments, I can run two or more machines at a production rate using different CONTROLS such as **FANUC, SIEMENS, MAZATROL matrix and MORI SEIK** control Pannels. I have programming and Setting knowledge which makes me capable to check and make changes or consult our engineering department during job setting and during job inspection.

In my 11years experience, I have been producing high quality components for **HYDRAULIC** and **PNEUMATIC CYLINDERS** that include Pistons, Glands, Cartridge valves, Shafts and Barrels. **OIL AND GAS COMPONENTS** include tubing spools, Tubing head bodies, Casing spools, gate valve bodies, bonnets, adapters, and hangers. **MOTOR VEHICLE** and other mechanical parts.

I have knowledge in AutoCAD, Reading and interpreting 3D drawings and other mechanical drawings and sketches.

Being a senior employee, I was tasked to motivate my team to success. I consistently met targets and deadlines by planning strategically, coordinating with the Quality Control Department, performing regular machine maintenance, and providing effective leadership.

Hardworking Technician with experience in policy enforcement and developing 5S safety procedures. Engaging and pleasant personality with the ability to monitor work quality, provide excellent training, and maintain a clean, safe work environment.

A passionate MACHINIST with extensive expertise leading effective and efficient PRODUCTION team.

As a graduate of paramilitary training, I maintain a strong standard of discipline and expect the same level of commitment from those around me.

KEY SKILLS

1. Fanuc control knowledge
2. Mazatrol matrix control knowledge
3. Setting Knowledge
4. Programming Knowledge
5. Tooling Knowledge
6. 3D drawing and interpretation Knowledge
7. DMG MORI Control Knowledge
8. Self- inspection knowledge
9. 5 axis knowledge and skills
10. Siemens control knowledge
11. Use of both Manual and Digital Measuring instruments.

WORK EXPERIENCE

BAKER HUGHES 09/06/2024 - 30/06/2026

CNC MACHINIST

1. **JOB SETTING** which includes selecting suitable fixtures, chucks, jaw cutting, loading of the workpiece and dialing. Program loading and selection, checking and verification of the spindle speeds and direction based on the types of the material either Inconel, cladding or normal alloy steel and using recommended tools and insert grades.
2. Set and operate CNC Turn Mill machines to produce high quality parts.
3. Machining wellheads and valves, Gate valve bodies, Spools, Adapters
4. Performing daily routine machine inspection and maintenance by checking and refilling coolant levels, oil levels and inspecting for any abnormal vibrations during machine and spindle warm up. Cleaning air filters.
5. Self-job inspection and coordinate with quality control department to enhance and

improve quality and attain the required measurements.

6. Communicate with production team members about specific quality issues such as measurements of material types and profiles.
7. Adhered to safety and clean area procedures to comply with agency and regulatory mandates.
8. Conducted investigations into questionable test results.

DELTA DOHA CORPORATION QATAR 7/12/2021 – 31/05/2024

TECHNICIAN CNC MACHINIST 5AXIS OPERATOR

- 1 Set, Program and operate Turn Mill machines to produce parts as per drawing
 2. Set and operate CNC turning machines
 3. Machining wellheads and valves, Gate valve bodies, Spools, Adapters
 4. Performing daily routine machine inspection and maintenance
 5. Conduct self-inspections and collaborate with the quality control department to improve processes.
- improve quality.

CESSCOLLINA EAST AFRICAN LTD- MOMBASA 08/2016-6/12/2021

TECHNICIAN CNC TURNING SETTER

1. Coordinated and managed schedules to ensure adequate coverage of key areas and consistently meet customer requirements.
- Service demands.
2. Kept accurate and detailed records of personal progress and productivity.
 3. Maintained safe, efficient workplaces.
 4. Produce high quality parts on both CNC and manual turning centers.
 5. Conduct inspections of components manufactured by fellow machinists within my department.

6. Created and deployed best practices to improve efficiency and reduce defects.

CESSCOLINA EAST AFRICA LTD- MOMBASA, 09/2014 - 08/2016

CNC MACHINIST

1. Produce high quality parts for Hydraulic, Pneumatic, Motor vehicle and other mechanical parts.
2. Inspect machine for any vibration misalignment and fluids level.
3. Maintenance of C.N.C and manual lathe machinery and equipment by performing inspections and preventative Maintenance.
4. Determined sources of problems resulting in machinery malfunction, utilizing evaluation instruments, visual and auditory observation to trouble shoot defective equipment.
5. Created and deployed best practices to improve efficiency and reduce defects.
6. Communicate with production team members about specific quality issues such as measurements of material types and profiles.
7. Adhered to safety and clean area procedures to comply with agency and regulatory mandates.
8. Conducted investigations into questionable test results.

COAST IRON ENGINEERING JANUARY 2014-SEPTEMBER 2014:

TECHNICIAN

- a) Turning operations
- b) Milling operations
- c) Shaping operations
- d) Maintenance.

AFRICAN MARINE AND GENERAL ENGINEERING COMPANY. MAY 2012 –SEPTEMBER 2012:

INDUSTRIAL ATTACHMENT

- a) I had my hands on the lathe machine and performed.
- b) Turning.
- c) Threading.
- d) Taper turning.
- e) Limits and fits.

- f) I had my hands on the milling machine and performed.
- g) Gear cutting.
- h) Indexing.
- i) Keyway cutting.
- j) During final months I did maintenance on ship and machine maintenance.

OTHER RESPONSIBILITIES: 2013- **Appointed A Special Police Officer During National General Elections In Mombasa**

OTHER SKILLS

Fast aid and Fire Fighting

Paramilitary

Inspiring team leader.

Customer service.

Target-driven.

EDUCATION

COAST INSTITUTE OF PROFESSIONAL STUDIES

Information Computer Technology

NATIONAL YOUTH SERVICE TECHNICAL TRAINING COLLEGE- MOMBASA KENYA

Mechanical Engineering Production Option

I joined on 05/2010 and graduated on 07/2013

Certificate: Mechanical Engineering Production Option, 05/2010

WANGULU HIGH SCHOOL

I obtained a secondary school certificate.

Joined on 02/2005 and graduated on 11/2008

IMULIRU PRIMARY SCHOOL

Joined on 01/1997 and graduated on 11/2004

I attained a certificate in primary education level.

REFEREES

1. MR. Khalid Hani

Machine shop supervisor
+97450005659

Delta Doha cooperation

2. Mr. Peter Mbela

Managing Director

+254705533412

CESSCOLINA EAST AFRICA

3 Mr. Baris Battal

CNC SERVICE ENGINEER
